

Julie Blue

Album Media Reviews

"Wing & A Prayer"

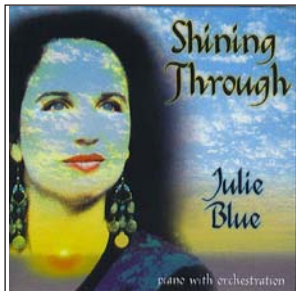

"Julie Blue is a Diva, choir director, composer and musical force bringing joy to many. This new album features Julie on vocals with a tasty backing of guitar, bass, sax, trumpet and drums. Songs like "Strength to Fall" ... and "Thank You" beautifully convey Julie's gospel soul.. Julie's songs offer us strength and encouragement to live our lives as fully as we can."

Banyon Books Magazine Review

"The real star here is Blue's effective vocal prowess. Having spent most of her adult life teaching others how to find their voice, Blue has inadvertently found hers in creating a treasure which encompasses both her talents and spiritual beliefs. The whole CD has a...special poignancy that's bound to make you feel a little more comfortable in your skin."

John Beaudin, Shared Vision Magazine

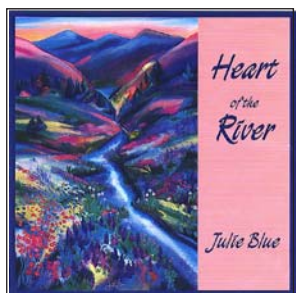

"Wing and a Prayer, Julie's first singer-songwriter release after four albums of solo piano, soars with beautiful melodies and inspired lyrics." **Lorne Mallin, The Vancouver Province**

"Shining Through"

"From the opening track, Of Consciousness & Light, Blue's solo piano shines through her latest album. The Vancouver musician and composer writes with deep understanding and plays with strength, clarity and remarkable subtlety. The music is always hopeful, always holding out the opportunity for renewal - what better way to greet the spring. 4 stars."

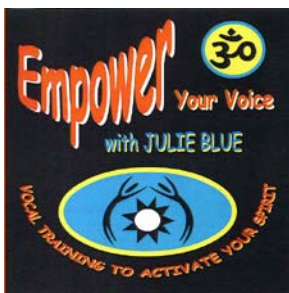

Lorne Mallin, The Vancouver Province

"Heart of the River"

"Heart of the River is simply beautiful instrumental music that creates a lovely space for the listener. Superbly played grand piano is textured with luscious cello, soaring flute and sax, exquisite acoustic guitar, tasteful synthesizer and percussion, and just a touch of voice that moves to a place beyond words."
